IMPROVING WORKING LIVES

BATA INDUSTRIALS FOOTWEAR

NORMS AND ICONS

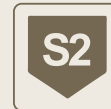

NORM EN ISO 20345:2011

Safety shoes for professional use with toecaps designed to give protection against impact when tested at an energy level of 200 joules. Antistatic properties, energy absorption of seat region, closed heel and resistance to fuel oil.

As S1 plus anti-penetration midsole.

As S1 plus water resistance and water absorption of upper material.

As S2 plus anti-penetration midsole and cleated outsole.

ICONS

TPU toecap protection offers extra protection from wear and tear on the leather surrounding the toe area.

A composite toecap protects the foot from heavy falling objects up to 200 joules.

ESD stands for ElectroStatic Discharge. ESD shoes prevent, or at least limit, harmful electrostatic discharge.

No metal parts.

A steel midsole protects the foot against sharp objects penetrating the bottom of the sole.

A composite midsole protects the foot against sharp objects penetrating the bottom of the sole.

Quick release system by Boa Technology inc.

Ladies models.

INTRODUCTION

Bata Industrials is a specialized division of the Bata Shoe Organization which has been producing high quality footwear for over 100 years. Bata Industrials has production facilities throughout the world and is present in over 40 countries across 5 continents with our company headquarters located in the Netherlands, Europe.

At Bata Industrials we have a number of advanced research and development departments. There, we combine the most advanced materials and techniques with the latest insights into biomechanics, allowing us to continually push the envelope of our capabilities. We do this with one single overriding goal: improving working lives by guaranteeing the wearers of our shoes optimum safety, health and comfort. This philosophy has won Bata Industrials an outstanding reputation in the better class of safety footwear.
