

TRAXX[®] COLLECTION

SERIOUSLY SAFE
SERIOUSLY RELIABLE

BATA INDUSTRIALS
THE SAFETY SHOE

SAFETY FOOTWEAR YOU ACTUALLY WANT TO WEAR

When you are on your feet most of the day, it is essential that you wear comfortable safety shoes, the kind you want to wear all day and every day. Our Traxx® collection has been designed to give your feet the best level of comfort all day long. Almost twenty years ago we at Bata Industrials developed the first Traxx® models and this collection is, even to this day, one of our best sellers.

MEETING THE HIGHEST DEMANDS

We have developed Traxx® with an eye for detail and unsurpassed attention to safety, comfort and design. The result is a range of excellent safety footwear that exceeds the legal and health & safety requirements. But what is equally important is that Traxx® meet the highest demands of today's workforce.

A STANDARD THAT IS UNMATCHED

Our goal has always been to make the best professional safety footwear on the market. Each collection is designed to deliver the level of protection, comfort and performance that is unmatched in the industry. Traxx® shoes have all the characteristics and features to match the highest standards, such as a steel toecap, leather heel section, one-piece footbed and a steel or FlexGuard® composite penetration resistant insert. The shoes are water-repellent and some models are even fitted with a wear-resistant TPU toecap for extra protection.

The saying goes, "Never change a winning team", but as technology evolves, so do people's expectations. That is why we are constantly striving to further improve the performance of our shoes, even if they are our best seller. We are more than excited to introduce our latest Traxx® collection with both new and updated shoe models. You can read more about it in this brochure.

Assortment

Together with the rebranding of the uppers and outsoles (symbol B) the footbed will change to a Poliyou footbed.

TRAXX® 23 S1P

- › Nubuck leather/nylon mesh/3M Scotchlite™ reflective material

- › Steel toecap
- › Bata VentAir®-lining
- › QuattroTech®-TPU-sole
- › Width W
- › Size range: 36–48
- › UK size range: 3–13 (including 6.5 and 9.5)

WHAT YOU FEEL IS WHAT YOU NEED

The Traxx® NXT 96 and 97 are new in our collection and the Traxx® 218 and 219 are updated. All four models contain a fresh, light colored anti-bacterial and odor free lining, as well as an improved soft anti-bacterial comfort POLIYOU footbed. The Traxx® 218 and 219 are also updated with a HDry waterproof membrane, to ensure that the climate inside your shoes is always optimal. Whatever the weather, your feet will stay cool, dry, fresh and comfortable.

FLEXGUARD® COMPOSITE PENETRATION RESISTANT INSERT

As safety shoes are getting lighter, softer and more flexible, it is more important than ever to ensure the necessary stability. That is why all four models feature a lightweight Flexguard® composite penetration resistant insert, instead of the much heavier steel one.

TRAXX® 92 S2

- › Nubuck leather
- › Steel toecap
- › Bata VentAir®-lining
- › QuattroTech®-TPU-sole
- › Width W
- › Size range: 36-48

- › QuattroTech®-TPU-sole
- › Poliyu footbed
- › Width W
- › Sizes: range 36-48
- › UK size range: 3-13 (including 6.5 and 9.5)

WHAT YOU SEE IS WHAT YOU GET

These four Traxx® models feature the TPU QuattroTech® outsole. This self-cleaning sole consists of different densities in order to offer the right protection at every point. With hard materials on the outside to provide excellent wear resistance and stability, safety soft spots in the interior to ensure anti-slip in all directions and the torsion stabiliser, these shoes provide additional robustness, grip and support with every movement. From the side you can see the springy midsole, which provides maximum shock absorption and comfort. That makes four, four unique features in one sole: QuattroTech®. Only available in these four Traxx® models and in a fresh new color.

TRAXX® 203 S3

- › Nubuck leather/abrasion resistant TPU toecap
- › Steel penetration resistant insert
- › Steel toecap
- › Bata Cool Comfort®-lining
- › QuattroTech®-TPU-sole
