BATA INDUSTRIALS
THE SAFETY SHOE

SERIOUSLY.

YOUR SAFETY IS OUR RESPONSIBILITY.

It may not come as a surprise to you, but we are in the business of keeping professionals safe. And it doesn't get any more responsible than that. Or does it? Responsibility also means being honest. And to be honest, there is still a world to win for us when it comes to responsibility in terms of sustainability.

Of course, our company cannot simply become 100% 'green' overnight. Still we have made progress. We use more and more sustainable materials, work according to more eco-intelligent processes, and are steadily reducing our energy consumption. As we feel responsible for the people wearing our safety shoes, we feel responsible for our planet and the next generations living on it. A safer and cleaner footprint? We are on it!

Enjoy our brand new catalog and if you have any questions or suggestions, please mail us at nl.marcom@bata.com.

Stay safe,

Martijn Mathot
Managing Director

**THE
SAFETY
SHOE** 

FINDING THE PERFECT MATCH

We know what moves you. We know that people work at their best when they have the right equipment, are well-protected and feel comfortable. Keeping them safe, healthy, active and energized. That's exactly what we're going for.

Through our extensive knowledge and broad experience in various working environments, we know exactly what you need, what your circumstances are, what challenges you face and how you move throughout your day.

Bata Industrials has selected 6 main industries to focus on when we develop our shoes. But it doesn't stop there! We know how much jobs in a single area can vary. That's why we created a perfect footwear solution for any job that needs to be done. The perfect match for your needs

and wishes. We are more than happy to advise you.

For example, we have developed different sole materials and profiles for any working surface. And no matter what climate or weather condition you work in: we have the right upper available. From waterproof to extremely breathable.

Whatever the environment or circumstances, Bata Industrials always has The Safety Shoe.

STUR®

untouchable in heavy duty

STUR COLLECTION

Untouchable in heavy duty.

Meet STUR! The first safety shoe that offers the highest possible heavy duty protection combined with optimum comfort and a stylish design. Made for extreme working conditions. With the use of the best and most durable materials like high-quality leather, microfiber or a special cut resistant ballistic nylon. Featuring a penetration resistant insert of FlexGuard® composite and aluminum toecap for maximum protection.

STUR is the first collection with a double density PU midsole. It absorbs shocks and returns energy to the wearer, reducing fatigue. Combined with an extra strong and abrasion resistant rubber outsole (SRC), developed in collaboration with Michelin. Inspired by the tire of an all-terrain vehicle for the best possible grip. For more comfort these shoes feature a very comfortable Premium Fit inlay sole.

BASALT S3

- > Pull up leather/nylon upper/abrasion resistant PU toecap
- > FlexGuard® composite penetration resistant insert
- > Aluminum toecap
- > Mesh lining
- > Odor Control
- > Dual density PU-rubber sole (Michelin)
- > Width W
- > Size range: 37-48
- > UK size range: 4-13 (including 6.5 and 9.5)

BAUXITE S3

- > Pull up leather upper/abrasion resistant PU toecap
- > FlexGuard® composite penetration resistant insert
- > Aluminum toecap
- > Mesh lining
- > Odor Control
- > Dual density PU-rubber sole (Michelin)
- > Width W
- > Size range: 37-48
- > UK size range: 4-13 (including 6.5 and 9.5)

DIONTE S3

- > Microfiber/nylon upper/abrasion resistant PU toecap
- > FlexGuard® composite penetration resistant insert
- > Aluminum toecap
- > BOA® Fit System
- > Mesh lining
- > Odor Control
- > Dual density PU-rubber sole (Michelin)
- > Width W
- > Size range: 37-48
- > UK size range: 4-13 (including 6.5 and 9.5)

BOA

DIORITE S3

- > FlexGuard® composite penetration resistant insert
- > Aluminum toecap
- > Mesh lining
- > Odor Control
- > Dual density PU-rubber sole (Michelin)
- > Width W
- > Size range: 37-48
- > UK size range: 4-13 (including 6.5 and 9.5)

STUR

untouchable in heavy duty

LASTS WITH THE BATA RECIPE
 All STUR models have the well-known Bata Fitting: a last developed especially for and by us, our secret recipe. A last is a mold made according to the average shape of feet. It is the same last we used for our Traxx collection. A last that has proven itself for over 20 years. A tailor-made last for safety shoes, based on the average foot needing ultimate protection and comfort.

MADE FOR EXTREME CONDITIONS
 All seven models have an upper made of high-quality leather, strong microfiber or a special ballistic nylon, and are water-repellent or have a waterproof HDry® membrane. The special double injection PU-PU/rubber sole is totally unique: together, the soles offer perfect grip, stability, shock absorption and energy return. Basalt and Galena are also equipped with a TPU ankle support that provides additional reinforcement and stability. The safety toecap is made of aluminum, and the penetration resistant insert is made of FlexGuard® composite. For more comfort, we have combined these materials with a very comfortable Premium Fit inlay sole and Odor Control. Almost all models have a 3D breathable mesh lining. 3D mesh is an open structure that allows air to circulate. In combination with the Odor Control treatment, ensuring fresh feeling feet all day long.

LIGHTWEIGHT ALUMINUM SAFETY TOECAP
 STUR shoes are equipped with a lightweight aluminum toecap. Much lighter than traditional steel and yet just as safe. The aluminum version is sturdy and makes walking easier and lighter, without compromising on protection or safety.

DOUBLE PU-MIDSOLE FOR SHOCK ABSORPTION AND REBOUND
 These two PU layers provide the perfect balance between rebound and shock absorption. The upper PU-midsole returns a lot of energy, thus reducing fatigue. The second PU-midsole provides great shock absorption after impact. The retained energy is returned to the foot by the upper midsole.

MICHELIN OUTSOLE
 For decades, MICHELIN have been developing and improving the performance of their tires. A benchmark name when it comes to grip. Especially for the STUR collection, we developed a PU-PU/rubber sole with double injection technology, in cooperation with MICHELIN. Made from a strong heavy duty material. Inspired by the MICHELIN CROSSGRIP tire for even more traction, stability and shock absorption. The sole has an abrasion resistant outer toecap. Strong and powerful, with the grip of an all-terrain vehicle. Excellent performance from start to finish.

SUMM+ COLLECTION

No compromise.

Introducing the SUMM+ collection: high-resistance safety shoes combining safety, durability and comfort, without ever compromising on style.

The SUMM collection features seven lightweight, stable and slip resistant models. Designed with an eye for Italian craftsmanship and style, these safety shoes look stylish and keep your feet protected even in the toughest work conditions. From leather to technical nylon, microfiber, PUTEK® and

more, all premium materials in SUMM reflect their superior performance and longevity. SUMM safety shoes feature a PU/TPU-sole (SRC) with a uniquely designed profile surface for an advanced level of slip resistance. Lightweight aluminum toecaps and FlexGuard® composite penetration resistant inserts provide maximum protection. The Premium Fit inlay sole offers greater comfort, shock absorption and stability. Plus, every SUMM model is EN ISO 20345:2011 certified and ESD.

SUMM+ THREE ESD S1P

- > 3D breathable mesh/microfiber upper
- > FlexGuard® composite penetration resistant insert
- > Aluminum toecap
- > Mesh lining
- > Odor Control
- > PU/TPU-sole

**GIMME
SUMM+
SAFETY
DURABILITY
COMFORT
STYLE**

No compromise.
safety + durability + comfort + style

HAND-CRAFTED IN ONE OF ITALY'S MOST FAMOUS SHOE MAKING DISTRICTS, SUMM+ IS ITALIAN MADE AND DESIGNED

Italian artisan traditions blend seamlessly with today's most innovative technology to guarantee quality, comfort and style. Characterized by the Italian eye for detail, this collection puts as much emphasis on safety and durability. Modern materials, sophisticated manufacturing processes, and a sixth sense for fashion come together into one grand design.

COMFORT

The Premium Fit inlay sole features a mesh top layer. The POLIYOU® foam technology provides outstanding breathability, shock absorption, and antibacterial and moisture-absorbing properties. Special zones provide support and stability, with added shock absorption for improved energy. Designed for maximum comfort.

LIGHTWEIGHT ALUMINUM TOECAP

The SUMM+ collection features a lightweight aluminum toecap, which is much lighter than traditional steel yet just as safe. The aluminum application is robust, making walking around easier and lighter without compromising protection or safety levels.

SLIPRESISTANCE

Slips, trips and falls are the number one cause of accidents in the workplace. This makes slip resistance one of the most important elements of a safety shoe. Every SUMM+ model is equipped with a SRC certified TPU-outsole with deeper tread grooves for better grip. SRC certification means the sole's slip resistance has been tested on both ceramic tiles covered in Sodium Lauryl Sulphate (soap) and on a steel surface with glycerol (SRA + SRB = SRC). The TPU-outsole passed both tests with flying colors.

Fun fact: The '51° N' symbol found on our shoes stands for Bata Industrials' main headquarters in Best, the Netherlands, located at 51.492406° latitude.

RADIANCE COLLECTION

Seriously safe. Seriously boosting.

The Radiance collection is designed with an eye for style, safety and comfort. In addition to the sporty look, the shoes offer maximum protection and ultimate comfort. All day long. To give your feet the highest level of comfort, the Radiance collection features a special lightweight EVA midsole with 3B-Motion Technology: Bata's Boosting

Base. This gives feet a huge power boost every step of the way. In combination with an inlay sole of high elastic EVA and the robust SRC certified Vibram® outsole, this ensures an optimal level of comfort and energy return. Even after a long working day your feet still feel comfortable and you still have a lot of energy left!

FULL METAL FREE

To give your feet the highest level of comfort, the Radiance collection features a special lightweight EVA midsole, using our own developed 3B-Motion technology: Bata's Boosting Base. The special molecular EVA structure is arranged in such a way that very little energy is lost upon ground impact. The use of specially formulated EVA material with high cushioning and elastic properties increases the level of comfort even further. What's more, you will get a real power BOOST when you are walking and, as a result, you will feel more energized.

BOOST YOUR FEET

**3B-MOTION:
BATA'S BOOSTING BASE**

STABILITY

The midsole hardness is 48 shore C. Wearing tests have proven that this is the right amount of softness to get the best balance between maximum feet comfort and stability. To ensure maximum stability, a stabilizer is placed on the upper at the heel.

ENERGY RETURN CUSHION

As a global leader in safety shoes, Bata Industrials has carefully adapted the highly boosting properties of EVA in the midsole. EVA is a common cushioning material in modern sports shoes, but the movements you make while working are different from when you are jogging; you lift, turn, kneel, bend and so on. It is therefore essential to get maximum feet and knee support. That is why we have performed numerous density tests in order to create a perfect balance between cushioning, energy return and stability.

COMFORT

By experimenting with the hardness of the midsole, we did not have to settle for a hard, uncomfortable rubber midsole or a structureless fluffy midsole. By incorporating our 3B-Motion technology, we have managed to create a perfect rebound, and therefore a smooth and comfortable feel. You can feel the boost in each step!

MAMMOET COLLECTION

Extreme safety for extreme conditions.

Mammoet makes high demands on the safety shoes for their professionals. Bata Industrials has all the expertise and years of experience to make the best safety shoes. Together we have developed a collection of shoes, boots and socks of superior quality. The shoes and boots are made of full grain leather with an extra soft PU inlay sole and a SRC certified rubber

outsole. A premium collection that incorporates the latest technologies. The innovative Tunnelsystem® provides maximum shock absorption. Thanks to the HDry® membrane the shoes are waterproof, Odor Control® prevents unpleasant odors and the breathable Bata Cool Comfort® lining keeps your feet cool and dry. All to keep you fit, alert and therefore safe at work.

UK sizes: 2-5 / 6-8 / 9-11 / 12-15

TOGETHER WE GO TO THE EXTREME.

Collaboration between Mammoet and Bata Industrials: Best of both worlds

For this new collection of safety shoes and boots we have joined forces with Mammoet. With the common goal: to guarantee professionals the best possible protection. Both companies have a long history as market leaders in their field. And both are headquartered in the Netherlands. From there, we both derive maximum value from our global presence. Bata Industrials is part of the Bata Shoe Organization, the world's largest shoe manufacturer.

Safety, health and comfort. Bata Industrials is constantly pushing the boundaries in these areas. Combining our extensive expertise and experience with first-class materials,

the most advanced techniques and the latest insights into design and comfort. We collaborate with scientists and carry out extensive tests in our own SATRA certified laboratory. Only when a shoe has passed all the tests it is ready to be worn. So that you stand strong, walk confidently and are safe in all conditions.

Now Mammoet and Bata Industrials are combining their knowledge and skills. The result: a new shoe collection that meets the highest safety requirements for safety shoes. The new Mammoet Footwear collection brings together the best of both worlds.

BATA INDUSTRIALS
THE SAFETY SHOE

SPORTMATES® COLLECTION

Seriously safe. Seriously sporty.

The SportMates® collection with four new models focuses on safety, breathability and lightweight. With their sporty style and lightweight design, SportMates are the perfect solution for every sporty and price-sensitive professional. Safety is the most crucial factor in the development process of our footwear. But when it comes to safety shoes, professionals today want more than just the best protection. They want shoes that offer maximum comfort and stability, look stylish and at the same time provide their feet with the best support.

The new models are responding to this demand. We have not only changed the uppers in colour and design, but also the outsole, which is more in line with what you see in sneakers. A soft cushioning EVA midsole provides excellent comfort and high shock absorption. The midsole is combined with a latex foam inlay sole and a lightweight upper made of breathable materials. These unique features ensure optimal climate and comfort in the shoe, all day long.

EAGLE COLLECTION

Seriously safe. Seriously affordable.

The unique Eagle collection has been designed with one goal in mind: to offer maximum safety, comfort and design, at the most competitive price. The Eagle is light: about 100 grams lighter than comparable safety shoes. The PU-foamed OrthoLite inlay sole provides a comfortable and soft feeling. The newly developed SRC certified outsole is equipped with the Easy Rolling System® and the new ingenious Tunnelsystem®. Combined with a softer density PU midsole, it offers maximum stability and grip.

FORWARD COLLECTION

Seriously safe. Seriously made in Holland.

Forward safety shoes are designed to deliver the highest level of protection and comfort. The incorporated Walkline® Evo technology reduces fatigue and keeps you energized. The perfect degree of shock absorption reduces impact to the joints, to help prevent injuries and tiredness. The light double density PU-sole

provides supreme grip and slip resistance, far exceeding the SRC standard. Every Forward model is detection friendly or even completely metal free and equipped with our moisture absorbing Premium Fit inlay sole. With a variety of high class upper materials there is a perfect match for almost any working environment.

WALKLINE® EVO

Walkline® is an ergonomic system that Bata Industrials has developed together with biomechanical researcher Terje Haugaa. Haugaa found that more than 30% of people who wear safety shoes have one or more health-related foot problems. Reason; many safety shoes are designed with a 'banana' shape that forces the foot into an unnatural position. To solve this problem, Bata Industrials and Terje Haugaa developed Walkline® years ago.

Many years of further research and development led to the latest Walkline® technology: Walkline® Evo. This technology offers durable comfort, excellent grip and outstanding shock absorption. The natural last provides the perfect fitting for the foot, with the heel lock securing the heel of the foot. Flexlines provide maximum flexibility needed in dynamic work environments and offer a natural support in every step. As a result you become less tired and walk more energetically.

1 ERGONOMIC
Walkline® Evo is ergonomic, based on applied science to maximize productivity of the foot motion by reducing fatigue and creating great comfort. Walkline® Evo guides and supports the foot to make natural movements and to use the momentum of the motion. The integrated, high-technology shank provides stability at the midfoot. Walkline® Evo helps you to stand and walk in a correct anatomical position.

2 DURABLE COMFORT
When you walk all day in your safety shoes, comfort has to be a top priority. Walkline® Evo offers durable comfort, supporting the foot movement in a healthy way. As an addition to the Walkline® Evo system, we integrated an extra thick inlay sole that stimulates natural foot movement and provides an extraordinary cushioning effect.

3 FLEXLINES
Walkline® Evo incorporates smart flexlines that follow the foot's natural flex zones, offering maximum support, grip and flexibility.

4 NATURAL LAST
Walkline® Evo offers perfect fitting by following the shape of the foot. Conventional shoe lasts force the foot into an unnatural banana shape, which can create anatomical problems. Walkline® Evo has a straight last, designed to fit the contour of the foot, keeping the foot in a secure position.

5 GRIP
Optimal grip is essential in all work environments. Slipping and falling account for many accidents on the work floor, which is easily avoided by wearing the right safety footwear. Walkline® Evo features anti-slip soles, which provide outstanding grip. We have added additional Flex Grip solutions in the design of our outsole for extra anti-slip purposes.

6 HEEL LOCK
Our heel lock makes sure the foot stays in the right position, locking it to support the natural foot motion.

7 SHOCK ABSORPTION
Walkline® Evo makes light work of hard surfaces. The Tunnelsystem® helps manage impact, providing energy return and cushioning. Our intelligent combination of midsole, outsole, inlay sole and in some cases shank can absorb shocks. This technology helps reduce impact to the joints, which reduces injuries and fatigue.

TRAXX COLLECTION

Seriously safe. Seriously reliable.

More than twenty years ago, we developed the Traxx collection in accordance with all legal, health and safety requirements. Now the models are equipped with the latest technologies and are still amongst our bestsellers. With a steel toecap, SRC certified outsole, high-quality inlay sole and penetration resistant insert made of steel or

FlexGuard® composite, the Traxx models set the new standard for safety shoes. Some models are water-repellent or even waterproof thanks to the HDry® membrane. And some shoes are equipped with an abrasion resistant TPU toecap to provide extra protection. The Traxx collection is specially designed to give your feet the best comfort. All day long.

ENDURO ACT COLLECTION

Seriously safe. Seriously supportive.

Comfort and support are the key words for our Enduro ACT collection. These shoes include the Walkline® 2.0 technology and many comfort features that reduce fatigue and keep you energized. The PU outsole is SRC certified. Purpose-made for general use, ACT offers lightweight, comfortable and sporty designs. The white ACT156 encompasses technology and quality materials such as microfiber. This importantly assists in maintaining the right level of hygiene in sectors like the food industry.

ODOR CONTROL IS THE ANSWER TO THE PROBLEM OF SHOES THAT SMELL BAD

Odor Control is a total solution that attacks and controls 99.9% of bacteria attracted to sweaty feet.

WHERE DOES THE SMELL COME FROM?

When feet sweat, they release moisture from the 250,000 sweat glands on each foot. Bacteria are attracted to this moisture, which they consume and then excrete as waste gases with an unpleasant and penetrating odor.

natural plant extract, derived from peppermint. Odor Control has the innate ability to control 99.9% of bacteria and even maintains its effect at temperatures of up to 240°C. This makes your feet feel fresh all day long.

WHAT IS ODOR CONTROL?

Bata Industrials has worked together with scientists to develop a solution that not only eliminates odor, but is also completely eco-friendly. Whereas other methods leave a large environmental footprint, Odor Control is free of synthetic chemicals. It is based on a completely

TESTED TO THE HIGHEST STANDARD

Odor Control delivers excellent antimicrobial efficiency in AATCC 100 testing, as conducted by an independent laboratory. Tested and approved according to the strictest standards in the world for antibacterial finishes on textile materials, Odor Control is used not just in the sock liner of safety shoes, but in all areas surrounding the foot.

ENDURO PWR COLLECTION

Seriously safe. Seriously supportive.

Heavy working conditions ask for solid shoes that provide optimum grip, comfort and support. That's where the PWR range comes in. The collection is designed to perfectly deal with rough ground such as gritty, concrete, and muddy surfaces.

The SRC certified rubber outsole has a wider and deeper profile and is resistant to heat up to 300° C. Although it's created to be tough, the ergonomic PWR collection incorporates the Walkline® 2.0 technology to help prevent fatigue and keep you on your toes.

HDry®

A NEW NAME FOR THE MOST ADVANCED WATERPROOF/BREATHABLE FOOTWEAR TECHNOLOGY PLATFORM.

Without gaps between the impenetrable waterproof membrane and the fabric underneath, water cannot get trapped in-between these layers. Because of this, there is no chance of water leaking through the fabric after long exposures to rain. A very important feature is that breathability is not affected.

HELIX COLLECTION

Seriously safe. Seriously robust.

Helix safety shoes have it all. They are durable, robust, stylish and provide the highest standard of comfort in the toughest of working conditions. The rubber outsoles are SRC certified. Helix safety shoes feature an advanced cushioning system and our ingenious Tunnelsystem® for the best possible shock absorption. This reduces fatigue and stress on the feet and joints. The built in 3M Scotchgard™ leather protector is designed to leave water and oil on the surface, which makes it easy to wipe dirt away. This will extend the life of your new favorite shoes.

BOA® Fit System

The BOA® Fit System makes shoe laces obsolete. The High Performance BOA® Fit System is quickly adjustable and guarantees a lifetime of carefree work days without laces untangling.

3M Scotchgard Protector

Built in leather protection that is designed to leave water and oil on the surface, which makes it easy to wipe dirt away. This will extend the life of your new favorite shoes.

Detection & airport friendly

This shoe is made with composite safety components certified to the highest safety standards. Making it ideal for travelling through metal detection portals and airport security.

NOVA COLLECTION

Seriously safe. Seriously energizing.

The increased performance and comfort of the Nova collection will leave you with the right amount of energy. The biomechanical Walkline® 2.0 technology, optimizes the wearer's walk and gait. The Flexlines in the sole follow the foot's natural flexing zones, creating a more energetic walking experience. The very strong heel counter contributes to the stabilization

and ergonomics of the foot. We have combined high-tech microfiber materials and breathable fabrics with a flexible, dynamic SRC certified TPU QuattroTech® sole. This creates a shoe that is designed for safety and looks ultra-stylish. Its light, breathable materials make it easy to wear. The result? You'll stay energized throughout the whole day, wherever you work.

HERO COLLECTION

Seriously safe. Seriously tough.

Our boots have been developed to deal with even the toughest demands and to meet the highest level of performance. They combine outstanding comfort for the longest working days with premium protection. The nitrile rubber SRA

certified outsoles are heat, oil and acid resistant. Goliath, Potent and Robust have a fur lining for perfectly warm feet in cold working conditions. The waterproof HDry® membrane makes Colossus the perfect choice for wet circumstances.

- > UK size range: 5-12 (including 6.5 and 9.5)

"The best choice when you're looking for high performance, premium quality and lasting durability."

SOCKS COLLECTION

Let's talk about socks with a perfect fit.

Especially with safety shoes it is important that the socks you are wearing are comfortable. Socks not only protect against cold or heat, but also against friction and help to remove perspiration in a controlled way. That's why we put as much innovative technology into our socks as we do into our shoes. The choices of high-tech fabrics and construction offer new levels of safety and comfort.

HEAVY DUTY SOCKS

SERIOUSLY. heavy duty

The heavy duty socks in this collection are designed to be worn in tough, rough working conditions. We have used the strongest and most durable fibers, yarns and protective zones for a perfect fit and extra comfort to your safety footwear. Perfectly comfortable, supported and protected when your feet need it most.

Sizes: S (35-38) / M (39-42) / L (43-46) / XL (47-50)
UK sizes: S (2-5) / M (6-8) / L (9-11) / XL (12-15)

HEAVY DUTY COTTON

An extra strong sock made from cotton, reinforced with polyamide at foot and heel. Specially designed to be worn in heavy duty working conditions with STUR safety shoes and boots. Heavy Duty socks also pair great with all our safety footwear made for tough work. Feet will stay perfectly comfortable thanks to excellent moisture-regulating properties and the extra soft and cushioned terry in the sole and leg.

- > Extra strong sock in calf-length (also to wear in boots)
 - > Optimal moisture-regulating properties ensure fresh, dry feet
 - > Leg and arch support
 - > Comfort board
 - > Reinforced zones around the heel, footbed and toe ensure extra durability
 - > Extra comfort due to the terry sole and leg
 - > Shock absorption
- Composition:** 75% cotton, 23% polyamide, 2% Lycra® (elastane)
Available in: black

LADY SOCKS

SERIOUSLY. ladylike

You know what you want. And we've listened to that. As the name suggests, we developed the Lady socks range especially for women. Tailored to the shape and size of the woman's foot, made from the best materials and with innovative technologies. Because women's feet are very different in both shape and sensitivity. Not only is the average woman's foot smaller and more narrow, a woman also positions her foot differently and tends to have cold feet more quickly.

That is why we have developed this unique collection of work socks especially for today's professional woman. Made from the best and most durable fibers, yarns and supportive zones. With a fit and comfort specially created for you.

Sizes: S (35-38) / M (39-42)
UK sizes: S (2-5) / M (6-8)

LADY BAMBOO

A lightweight and extra soft work sock specially shaped for the woman's foot. Made from viscose of bamboo and wool for softness and moisture regulation plus polyamide for strength of the sock. Through the combination of excellent moisture-regulating properties and Pro-Cool® polyester fibers, feet remain pleasantly dry and fresh. Due to the antibacterial Amicor™ unpleasant odors don't stand a chance.

- > Lightweight and soft work sock made from viscose of bamboo and wool
 - > Designed for women's feet
 - > Optimal moisture-regulating properties ensure fresh, dry feet
 - > Flex Fit ensures a smooth transition from leg to foot
 - > Leg and arch support
 - > Comfort board
 - > Extra protection and comfort due to the terry sole
 - > Shock absorption
 - > Antibacterial fibers keep unpleasant smells at bay and keep feet feeling fit
 - > ESD due to metal fiber
- Composition:** 31% viscose of bamboo, 30% polyamide, 19% Pro-Cool® (polyester), 10% Amicor™ (acrylic), 8% wool, 1% Bekinox® (metal fiber), 1% Lycra® (elastane)
Available in: light grey

LADY COTTON

An all-round work sock, designed for women's feet. Lady Cotton is made from cotton with Pro-Cool® polyester fibers in the foot, which will transport moisture to the outside of the sock. Thanks to the combination of Pro-Cool® and ventilation channels feet will stay comfortably fresh and dry. Due to the antibacterial silver unpleasant odors don't stand a chance. Optimal wearing comfort provided by anatomically shaped footbed.

- > All-round work sock made from cotton
 - > Designed for women's feet
 - > Optimal moisture-regulating properties and air circulation ensure fresh, dry feet
 - > Leg support
 - > Comfort board
 - > Extra comfort due to the terry sole
 - > Shock absorption
 - > Unpleasant odors stand no chance due to antibacterial silver
 - > ESD due to silver
- Composition:** 51% cotton, 31% Pro-Cool® (polyester), 13% polyamide, 3% silver, 2% Lycra® (elastane)
Available in: navy

SPECIAL SOCKS

SERIOUSLY. good protection

The special socks in this range are designed to offer protection in specific working environments and conditions. The best fibers, yarns and protective zones are used to guarantee a perfect fit and enhanced comfort to your safety shoes. Leaving your feet safe, supported and protected.

Sizes: 35-38 / 39-42 / 43-46 / 47-50
UK sizes: 2-5 / 6-8 / 9-11 / 12-15

ANTI BUG

A long sock made from cotton with Cell Solution Protection® fibers. Protects feet and lower legs against nasty ticks and mosquito bites and more importantly against infectious diseases related to these bites. A perfect sock for foresters, horticulturists, farmers, soldiers and anyone working in nature.

- › Effective protection of feet and lower legs due to Cell Solution Protection® fibers
- › Cell Solution Protection® is a patented technology in which the insect repellent permethrin is spun deep into the fiber and ensures an even release of the permethrin
- › Maintains its protection up to 100 washes and does not require post-treatment
- › Cell Solution® Protection is Oeko-Tex® Class II certified and does not irritate to skin
- › Optimal moisture-regulating properties ensure fresh, dry feet
- › Flex Fit ensures a smooth transition from leg to foot
- › Special zones provide protection for heel and toe
- › Leg and arch support
- › Smooth board
- › Comfort seam
- › Extra protection and comfort due to the terry sole
- › Shock absorption
- › Unpleasant odors stand no chance due to antibacterial silver
- › ESD

Composition: 32% cotton, 24% polyamide, 18% Pro-Cool® (polyester), 11% Lenzing Modal® (viscose), 11% Cell Solution Protection® (cellulose), 2% Lycra® (elastane), 2% silver
Available in: gray-green

* Wearing Anti Bug socks does not offer a 100% guarantee against ticks and mosquito bites. It remains important to check your body and clothing for ticks after coming indoors.

FLAME PROOF

A flame-retardant sturdy calf-length sock made from Zirpro virgin wool with meta-aramid fiber. Specially designed for fire crews and welders. Safe and extra comfortable. Complies with safety standards EN ISO 14116:2015.

- › Good protection in extreme heat due to flame-retardant, heat-resistant virgin wool
- › Shrink-proof and therefore easily washable in the washing machine
- › Special zones provide protection for heel, toe and Achilles
- › Leg and arch support
- › Comfort board
- › Comfort seam
- › Extra protection and comfort due to the terry sole
- › Shock absorption

Composition: 44% Zirpro (virgin wool), 30% Kermel® (meta-aramid), 24% polyamide, 2% Lycra® (elastane)
Available in: black

ALL SEASONS SOCKS

SERIOUSLY. good comfort

No matter how cold or warm it is, the natural fibers in Bata's All Seasons socks always feel pleasant. All Seasons socks are available in Merino wool and cotton.

The Merino wool comes from Merino sheep with very fine wool that does not itch. As a result, the Merino wool socks are great in any circumstance. Wool ensures an even temperature of the skin, retains 30% moisture without feeling wet and is naturally elastic, dirt-resistant and anti-bacterial.

Cotton socks are stronger than wool and can be washed at 40° C. Special zones in the sock guarantee a perfect fit and ultimate comfort. Your feet are safe, protected and supported in the right places.

Sizes: 35-38 / 39-42 / 43-46 / 47-50
UK sizes: 2-5 / 6-8 / 9-11 / 12-15

ALL SEASONS COTTON

- › Optimal wearing comfort thanks to the anatomically shaped foot sole in the left and right sock
- › Optimal moisture-regulating properties ensure fresh, dry feet
- › Flex Fit ensures a smooth transition from leg to foot
- › Special zones provide protection for heel, toe and Achilles
- › Leg, ankle and arch support
- › Comfort seam
- › Extra protection and comfort due to the terry sole
- › Shock absorption
- › Antibacterial fibers keep unpleasant smells at bay and keep feet feeling fit
- › ESD due to metal fiber

COOL SOCKS

SERIOUSLY. cool and dry

KEEP YOUR HEAD AND FEET COOL!

Working in a warm environment? Cool socks from Bata Industrials offer your feet a pleasant cooling. All models from this collection contain Pro-Cool®. This fiber leads perspiration from your foot through the sock to the inner lining of the shoe. This keeps your feet nicely cool and dry, which reduces the risk of blistering. The combination with other materials (fibers and yarn) and the addition of various protective zones ensure unique functional and comfort-enhancing properties. The blue line on the side of the sock shows that it is a Cool sock.

Sizes: 35-38 / 39-42 / 43-46 / 47-50

UK sizes: 2-5 / 6-8 / 9-11 / 12-15

WHAT'S IN A NAME?

The name of the sock speaks for itself: the Cool socks keep your feet cool, with the Thermo socks they stay nice and warm. There are two letters behind the name. The first letter stands for the volume of the sock: light, medium or heavy. The second refers to the length: short, mid-high or long. This way you can immediately see which sock suits you best.

Thickness/volume length

L = Light S = Short
M = Medium M = Mid-high
H = Heavy L = Long

COOL LS 1

Feet remain pleasantly dry within this comfortable sock with its outstanding moisture-regulating properties.

- > Optimal moisture-regulating properties ensure fresh, dry feet
- > Flex Fit ensures a smooth transition from leg to foot
- > Leg and arch support

A warm, woolen ankle sock with superb moisture regulation. Thanks to the combination of virgin wool and Pro-Cool®, feet remain warm and dry in all conditions.

- › Optimal air circulation for pleasantly fresh, dry feet
- › Flex Fit ensures a smooth transition from leg to foot
- › Special zones provide protection for heel, toe and Achilles
- › Comfort seam
- › Extra protection and comfort due to the terry sole
- › Shock absorption
- › Antibacterial fibers keep unpleasant smells at bay and keep feet feeling fit
- › ESD due to metal fiber

Composition: 34% shrink-resistant virgin wool, 29% polyamide, 23% Pro-Cool® (polyester), 12% Amicor™ (acrylic), 1% Lycra® (elastane), 1% Bekinox® (metal fiber)

Available in: black

THERMO ML

An agreeably long, warm woolen sock, ideal for people wearing boots. Through the combination of virgin wool and Pro-Cool®, feet remain warm and dry in all conditions. Has many supportive and protective zones, plus an extra-long band to prevent sagging.

- › Optimal wearing comfort thanks to the anatomically shaped foot sole in the left and right sock
- › Optimal air circulation for pleasantly fresh, dry feet
- › Flex Fit ensures a smooth transition from leg to foot
- › Special zones provide protection for heel, toe, ankle, Achilles, shinbone and calf
- › Leg, ankle and arch support
- › Comfort seam
- › Shock absorption
- › Antibacterial fibers keep unpleasant smells at bay and keep feet feeling fit
- › ESD due to metal fiber

Composition: 47% shrink-resistant virgin wool, 27% polyamide, 16% Pro-Cool® (polyester), 8% Amicor™ (acrylic), 1% Lycra® (elastane), 1% Bekinox® (metal fiber)

Available in: anthracite

INLAY SOLES COLLECTION

The right inlay sole makes a safety shoe your safety shoe

Safety is paramount, but comfort and support are just as important. You wear safety shoes every day, so they should fit comfortably. Bata Industrials brings shoes, socks and inlay soles together for the best results because no foot is the same. The right combination ensures optimum comfort, prevents fatigue and ensures that you have energy until the last minute of your working day. The result: a safer working environment in which fewer accidents occur.

Our top quality inlay soles ensure an even better fit. The smart support zones offer optimum wearing comfort and stability.
