When you develop safety shoes, it is mandatory to be a responsible company. You must actually care, and of course we do.

We all share the same planet. The place where we have to get along, help each other out and make sure next generations can live healthy and happy lives.

With our products, we make professionals stand strong and walk with confidence. A great way of contributing to the well-being of people, but there is more.

We constantly increase the use of sustainable materials, stimulate eco-intelligent development, and keep reducing our energy consumption. We continuously collaborate with global partners to create sustainable development.

But most of all, we look after each other. We invite you to do the same.

Best regards and stay safe,

Martijn Mathot
Managing Director

FINDING THE PERFECT MATCH

We know what moves you. We know that people work at their best when they have the right equipment, are well-protected and feel comfortable. Keeping them safe, healthy, active and energized. That’s exactly what we’re going for.

Through our extensive knowledge and broad experience in various working environments, we know exactly what you need, what your circumstances are, what challenges you face and how you move throughout your day.

Bata Industrials has selected 7 main industries to focus on when we develop our shoes. But it doesn’t stop there! We know how much jobs in a single area can vary. That’s why we created a perfect footwear solution for any job that needs to be done. The perfect match for your needs and wishes. We are more than happy to advise you.

For example, we have developed different sole materials and profiles for any working surface. And no matter what climate or weather condition you work in: we have the right upper available. From waterproof to extremely breathable. Whatever the environment or circumstances, Bata Industrials always has The Safety Shoe.

SERIOUSLY.
Women’s safety shoes.

No more men’s shoes in a small size for the ladies! With this new WHAWOWA collection, we’re finally offering a safety shoe with a perfect last for women. Completely adapted to the shape and size of the female foot. This ensures a better fit, giving more comfort and preventing injuries. And that’s what you’ll feel!

In industries such as assembly, automotive, food, or logistics you need maximum safety. When choosing the right work shoes, you look for safety, comfort and price. But everybody knows, women also look for color and modelling. The WHAWOWA collection is stylish, high-quality and safe. The models offer ultimate protection, thanks to the aluminium safety toecap and strong, anti-slip sole. Made of the best and most durable materials and equipped with smart technologies, such as shock absorption, Odor Control and highly breathable lining which provides cushioning and wicks away moisture. And thanks to the Premium Fit inlay sole, the springy EVA-midsole and the Easy Rolling System® it feels like you’ll walk on air.

The WHAWOWA collection is expected to be available as from end Q4 2022.

- UK size range: 1-8

The WHAWOWA collection is expected to be available as from end Q4 2022.
We asked women working in potential unsafe conditions what they really look for in a safety shoe. What their experiences are. We drew up requirements and developed WHAOWA.

WHAT WOMEN WANT.

A collection specifically designed and developed for today's professional women. Not big, heavy and masculine. But slim, light and stylish. Inspired by the latest fashion trends. Made with technologically innovative materials and production methods.

SAFETY
COMFORT
STYLE
The five models in the brand new WHAWOWA collection are all stylish, high-quality safety shoes. The Lady socks in combination with the safety shoes make sure that you can work even more comfortably.

WHAWOWA can be perfectly combined with our Lady Socks (p.90)

This is the safety we need

When you work in industries such as assembly, automotive, food, or logistics you need maximum safety. When choosing the right work shoes, you look for safety, comfort and price. But color and modelling, too, right?
STUR COLLECTION

Untouchable in heavy duty.

Meet STUR! The first safety shoe that offers the highest possible heavy duty protection combined with optimum comfort and a stylish design. Made for extreme working conditions. With the use of the best and most durable materials like high-quality leather, microfiber or a special cut resistant ballistic nylon. Featuring a penetration resistant insert of FlexGuard® composite and aluminum toecap for maximum protection.

STUR is the first collection with a double density PU midsole, it absorbs shocks and returns energy to the wearer, reducing fatigue. Combined with an extra strong and abrasion resistant rubber outsole (SRC), developed in collaboration with Michelin. Inspired by the tire of an all-terrain vehicle for the best possible grip. For more comfort these shoes feature a very comfortable Premium Fit inlay sole.

**BASALT S3**
- Pull up leather/nylon upper/abrasion resistant PU toecap
- FlexGuard® composite penetration resistant insert
- Aluminium toecap
- Mesh-lining
- Odor Control
- PU/Pu/rubber sole (Michelin)
- Width W
- Size range: 37-48
- UK size range: 4-13 (including 6.5 and 9.5)

**BAUXITE S3**
- Pull up leather/upper/abrasion resistant PU toecap
- FlexGuard® composite penetration resistant insert
- Aluminium toecap
- Mesh-lining
- Odor Control
- PU/Pu/rubber sole (Michelin)
- Width W
- Size range: 37-48
- UK size range: 4-13 (including 6.5 and 9.5)

**DIONTE S3**
- Microfiber/nylon upper/abrasion resistant PU toecap
- FlexGuard® composite penetration resistant insert
- Aluminium toecap
- BOA® Fit System
- Mesh-lining
- Odor Control
- PU/Pu/rubber sole (Michelin)
- Width W
- Size range: 37-48
- UK size range: 4-13 (including 6.5 and 9.5)

**DIORITE S3**
- Microfiber/ballistic nylon upper/abrasion resistant PU toecap
- FlexGuard® composite penetration resistant insert
- Aluminium toecap
- Mesh-lining
- Odor Control
- PU/Pu/rubber sole (Michelin)
- Width W
- Size range: 37-48
- UK size range: 4-13 (including 6.5 and 9.5)
STUR can be perfectly combined with our heavy duty socks (p.91)
The new STUR collection is made for extreme working conditions. The specially developed Bata Fitting last guarantees comfort. The sole is also unique. The double midsole absorbs shocks and returns energy to the wearer. This reduces fatigue considerably. The lower midsole forms, as it were, a ‘box’ in which the upper midsole lies. This ensures a better connection between the upper and the outsole, and therefore provides more stability. The arched profile edges provide grip and control on uneven terrain, the grooved profile provides good adherence to the ground. The design is Italian, with a clean and balanced combination of subtle colors and accessories. STUR combines heavy duty safety with comfort, durability and style.

DOUBLE PU-MIDSOLE FOR SHOCK ABSORPTION AND REBOUND
These two PU layers provide the perfect balance between rebound and shock absorption. The upper PU-midsole returns a lot of energy, thus reducing fatigue. The second PU-midsole provides great shock absorption after impact. The retained energy is returned to the foot by the upper midsole.

MADE FOR EXTREME CONDITIONS
All seven models have an upper made of high-quality leather, strong microfiber or a special ballistic nylon, and are water repellent or have a water-proof fastex® membrane. The special double injection PU-rubber sole is totally unique. Together, the soles offer perfect grip, stability, shock absorption and energy return. Rand and salma are also developed with a PU-sole to provide additional reinforcement and stability. The safety toecap is made of aluminium, and the penetration resistant insert is made of Flexguard® composite. For more comfort, we have combined these materials with a very comfortable freedom fit insole and aero control. Almost all models have a 3D breathable mesh lining. 3D mesh is an open structure that allows air to circulate. In combination with the aero control treatment, ensuring even feeling feet all day long.
No compromise.

Introducing the SUMM+ collection: high-resistance safety shoes combining safety, durability and comfort, without ever compromising on style.

The SUMM collection features several lightweight, stable and slip resistant models. Designed with an eye for Italian craftsmanship and style, these safety shoes and boots look stylish and keep your feet protected even in the toughest work conditions. From leather to technical nylon, microfiber, PUtek® and more, all premium materials in SUMM reflect their superior performance and longevity. SUMM safety shoes and boots feature a unique designed profile surface for an advanced level of slip resistance. Lightweight aluminum toecaps and FlexGuard® composite penetration resistant inserts provide maximum protection. The Premium Fit inlay sole offers greater comfort, shock absorption and stability. All footwear in this collection is EN ISO 20345:2011 certified and ESD.

**SUMM+ THREE ESD S1P**
- 3D breathable mesh/microfiber upper
- FlexGuard® composite penetration resistant insert
- Aluminum toecap
- Mesh lining
- Odor Control
- PUT/TPU sole
- Width W
- Size range: 38–48
- UK size range: 5–13 (including 6.5 and 9.5)

**SUMM+ FOUR ESD S1P**
- 3D breathable mesh/microfiber upper
- BOA® Fit System
- FlexGuard® composite penetration resistant insert
- Aluminum toecap
- Mesh lining
- Odor Control
- PUT/TPU sole
- Width W
- Size range: 38–48
- UK size range: 5–13 (including 6.5 and 9.5)

**SUMM+ ONE ESD S3**
- Technical nylon/microfiber upper
- FlexGuard® composite penetration resistant insert
- Aluminum toecap
- Mesh lining
- Odor Control
- PUT/TPU sole
- Width W
- Size range: 38–48
- UK size range: 5–13 (including 6.5 and 9.5)

**SUMM+ TWO ESD S3**
- Technical nylon/microfiber upper
- FlexGuard® composite penetration resistant insert
- Aluminum toecap
- Mesh lining
- Odor Control
- PUT/TPU sole
- Width W
- Size range: 38–48
- UK size range: 5–13 (including 6.5 and 9.5)
safety + durability + comfort + style

**SUMM+ FIVE ESD S3**
- Full grain leather upper
- BOA® Fit System
- Flexguard® composite penetration resistant insert
- Aluminium toe-cap
- Mesh lining
- Odor Control
- PU/TPU-sole
- Width W
- Size range: 38–48
- UK size range: 5–13 (including 6.5 and 9.5)

**SUMM+ SEVEN ESD S3**
- PU/leather upper
- BOA® Fit System
- Flexguard® composite penetration resistant insert
- Aluminium toe-cap
- Mesh lining
- Odor Control
- PU/TPU-sole
- Width W
- Size range: 38–48
- UK size range: 5–13 (including 6.5 and 9.5)
HAND-CRAFTED IN ONE OF ITALY’S MOST FAMOUS SHOE MAKING DISTRICTS, SUMM+ IS ITALIAN MADE AND DESIGNED

Italian artisan traditions blend seamlessly with today’s most innovative technology to guarantee quality, comfort and style. Characterized by the Italian eye for detail, this collection puts as much emphasis on safety and durability. Modern materials, sophisticated manufacturing processes, and a sixth sense for fashion come together into one grand design.

LIGHTWEIGHT ALUMINUM TOECAP

The SUMM+ collection features a lightweight aluminum toecap, which is much lighter than traditional steel yet just as safe. The aluminum application is robust, making walking around easier and lighter without compromising protection or safety levels.

SLIP-RESISTANCE

Slips, trips and falls are the number one cause of accidents in the workplace. This makes slip resistance one of the most important elements of a safety shoe. Every SUMM+ model is equipped with a SRC-certified TPU-outsole with deeper tread grooves for better grip. SRC certification means the sole’s slip resistance has been tested on both ceramic tiles covered in Sodium Lauryl Sulphate (soap) and on a steel surface with glycerol (SRA + SRB = SRC). The TPU-outsole passed both tests with flying colors.

COMFORT

The Premium Fit inlay sole features a mesh top layer. The POLIYOU® foam technology provides outstanding breathability, shock absorption, and antibacterial and moisture-absorbing properties. Special zones provide support and stability, with added shock absorption for improved energy. Designed for maximum comfort.

The SUMM+ BOOT collection is expected to be available as from second half of Q4 2022.

**SUMM+ BOOT BLACK S3**
- Full-grain leather upper
- TPU toecap resistant
- FlexGuard® composite penetration resistant insert
- Aluminum bumper
- Pull-up straps
- Mesh lining
- PU/PVU sole
- Width W
- Size range: 38-48
- UK size range: 5-13

**SUMM+ BOOT BLK WINTER S3**
- Full-grain leather upper
- TPU toecap resistant
- FlexGuard® composite penetration resistant insert
- Aluminum bumper
- Pull-up straps
- Faux fur lining
- PU/PVU sole
- Width W
- Size range: 38-48
- UK size range: 5-13

**SUMM+ BOOT BROWN S3**
- Full-grain leather upper
- TPU toecap resistant
- FlexGuard® composite penetration resistant insert
- Aluminum bumper
- Pull-up straps
- Mesh lining
- PU/PVU sole
- Width W
- Size range: 38-48
- UK size range: 5-13

**SUMM+ BOOT BRN WINTER S3**
- Full-grain leather upper
- TPU toecap resistant
- FlexGuard® composite penetration resistant insert
- Aluminum bumper
- Pull-up straps
- Faux fur lining
- PU/PVU sole
- Width W
- Size range: 38-48
- UK size range: 5-13

- Size range: 38-48
- UK size range: 5-13

Fun fact: The ‘51° N’ symbol found on some models stands for Bata Industrials’ main headquarters in Best, the Netherlands, located at 51.492406° latitude.
The Radiance collection is designed with an eye for style, safety and comfort. In addition to the sporty look, the shoes offer maximum protection and ultimate comfort. All day long. To give your feet the highest level of comfort, the Radiance collection features a special lightweight EVA midsole with 3B-Motion Technology: Bata’s Boosting Base. This gives feet a huge power boost every step of the way. In combination with an inlay sole of high elastic EVA and the robust SRC certified Vibram® outsole, this ensures an optimal level of comfort and energy return. Even after a long working day your feet still feel comfortable and you still have a lot of energy left!

**OPEN ESD S1P**
- Textile/seamless TPU film upper/abrasion resistant TPU toecap
- FleexGuard® composite penetration resistant insert
- Composite toe cap
- Velcro closure
- Mesh lining
- EVA/rubber sole (Vibram®)
- Width W
- Size range: 31–47
- UK size range: 2–12 (including 6.5 and 9.5)

**FLOW ESD S1P**

- EVA/rubber sole (Vibram®)
- Width W
- Size range: 35-47
- UK size range: 2-12 (including 6.5 and 9.5)
To give your feet the highest level of comfort, the Radiance collection features a special lightweight EVA midsole, using our own developed 3B-Motion technology: Bata’s Boosting Base. The special molecular EVA structure is arranged in such a way that very little energy is lost upon ground impact. The use of specially formulated EVA material with high cushioning and elastic properties increases the level of comfort even further. What’s more, you will get a real power BOOST when you are walking and, as a result, you will feel more energized.

**ENERGY RETURN CUSHION**
As a global leader in safety shoes, Bata Industrials has carefully adapted the highly boosting properties of EVA in the midsole. EVA is a common cushioning material in modern sports shoes, but the movements you make while working are different from when you are jogging; you lift, turn, kneel, bend and so on. It is therefore essential to get maximum feet and knee support. That is why we have performed numerous density tests in order to create a perfect balance between cushioning, energy return and stability.

**COMFORT**
By experimenting with the hardness of the midsole, we did not have to settle for a hard, uncomfortable rubber midsole or a structureless fluffy midsole. By incorporating our 3B-Motion technology, we have managed to create a perfect rebound, and therefore a smooth and comfortable feel. You can feel the boost in each step!

**STABILITY**
The midsole hardness is 48 shore C. Wearing tests have proven that this is the right amount of softness to get the best balance between maximum feet comfort and stability. To ensure maximum stability, a stabilizer is placed on the upper at the heel.

**BOOST YOUR FEET**

**3B-MOTION: BATA’S BOOSTING BASE**
DB.01. COLLECTION

Seriously stylish. Seriously comfortable.

The first series of the DB.01. collection consists of three work sneakers in black, white and black and white. This stylishly designed safety sneaker collection is designed by the Dutch top designer Dyanne Beekman (DB). Each of models are eye-catchers under any business outfit. The sneaker is feather light and offers excellent support and comfort for good stability. It has high-quality grip and slip resistance, even above the European safety standard. The sneaker is antibacterial and washable for maximum hygiene. The three models do not have a safety toe cap and are particularly suitable for workers in the hospitality, cleaning and hairdressing industries. Here there are no mechanical risks due to bumps or pressure. With these safety shoes, the emphasis is mainly on lightweight, excellent grip and fit. The shoes are available for women and men.

The DB.01. collection is available for distributors in Europe, with the exception of the Netherlands. It is expected to be available as from Q4 2022.
MAMMOET COLLECTION

Extreme safety for extreme conditions.

Mammoet makes high demands on the safety shoes for their professionals. Bata Industrials has all the expertise and years of experience to make the best safety shoes. Together we have developed a collection of shoes, boots and socks of superior quality. The shoes and boots are made of full grain leather with an extra soft PU inlay sole and a SRC certified rubber outsole. A premium collection that incorporates the latest technologies. The innovative Tunnelsystem® provides maximum shock absorption. Thanks to the HDry® membrane the shoes are waterproof, Odor Control® prevents unpleasant odors and the breathable Bata Cool Comfort® lining keeps your feet cool and dry. All to keep you fit, alert and therefore safe at work.

ANCHO S3
ANKLE HIGH MODEL WITH LACES AND ZIPPER
- Full grain leather/resistant TPU upper abrasion resistant rubber toecap
- Flexguard® composite penetration resistant insert
- Composite toecap
- Dirt proof zipper
- Bata Cool Comfort® lining
- Odor Control
- HDry® waterproof membrane
- Polyurethane sole
- Width: XW
- Size range: 36-49
- UK size range: 3-14 (including 6.5 and 9.5)

BARGE S3
PULL ON BOOT
- Full grain leather/resistant TPU upper abrasion resistant rubber toecap
- Flexguard® composite penetration resistant insert
- Composite toecap
- Pull-up straps
- Bata Cool Comfort® lining
- Odor Control
- HDry® waterproof membrane
- Polyurethane sole
- Width: XW
- Size range: 36-49
- UK size range: 3-14 (including 6.5 and 9.5)

Available in: black with red accents
Sizes: 35-38 / 39-42 / 43-46 / 47-50
UK sizes: 2-5 / 6-8 / 9-11 / 12-15

TOGETHER
WE GO TO
THE EXTREME.

Collaboration between Mammoet and Bata Industrials:
Best of both worlds

For this new collection of safety shoes and boots we have joined forces with Mammoet. With the common goal to guarantuee professionals the best possible protection. Both companies have a long history as market leaders in their field. And both are headquartered in the Netherlands. From there, we both derive maximum value from our global presence. Bata Industrials is part of the Bata Shoe Organization, the world’s largest shoe manufacturer.

Safety, health and comfort. Bata Industrials is constantly pushing the boundaries in these areas. Combining our extensive expertise and experience with first-class materials, the most advanced techniques and the latest insights into design and comfort. We collaborate with scientists and carry out extensive tests in our own SATRA certified laboratory. Only when a shoe has passed all the tests it is ready to be worn. So that you stand strong, walk with confidence and are safe in all conditions.

Now Mammoet and Bata Industrials are combining their knowledge and skills. The result: a new shoe collection that meets the highest safety requirements for safety shoes.

The new Mammoet Footwear collection brings together the best of both worlds.
The SportMates® collection with four models focuses on safety, breathability and lightweight. With their sporty style and lightweight design, SportMates are the perfect solution for every sporty and price-sensitive professional. Safety is the most crucial factor in the development process of our footwear. But when it comes to safety shoes, professionals today want more than just the best protection. They want shoes that offer maximum comfort and stability, look stylish and at the same time provide their feet with the best support. The new models are responding to this demand. We have not only changed the uppers in colour and design, but also the outsole, which is more in line with what you see in sneakers. A soft cushioning EVA midsole provides excellent comfort and high shock absorption. The midsole is combined with a latex foam inlay sole and a lightweight upper made of breathable materials. These unique features ensure optimal climate and comfort in the shoe, all day long.

"Four new models: ultimate protection in a sporty style."

**RISE S1P**
- Microfiber/mesh/PU non-stitching upper
- FlexGuard® composite penetration resistant insert
- Composite toecap
- Mesh lining
- EVA/rubber sole

- UK size range: 2-13 (including 6.5 and 9.5)

SPORTMATES® COLLECTION

Seriously safe. Seriously sporty.
The Eagle collection has been expanded and now offers seven extra metal-free models. The unique collection has been designed with one goal in mind: to offer maximum safety, comfort and design, at the most competitive price. The extra seven models are perfectly suited to environments where metal-free is required. For example, in environments where metal detection gates are set up. But also in environments where extreme cold is present (cold storage facilities). There, metal-free offers extra comfort.

The Eagle is light: about 100 grams lighter than comparable safety shoes. The PU-foamed OrthoLite inlay sole provides a comfortable and soft feeling. The newly developed SRC certified outsole is equipped with the Easy Rolling System®. Combined with a softer density PU midsole, it offers maximum stability and grip.

**FALCON ESD S1**
- Suede leather upper
- Steel toecap
- Velcro closure
- Mesh lining
- PU/PVU sole
- Width W
- Size range: 35-44
- UK size range: 2-14 (including 6.5 and 9.5)

**CERNAN ESD S1P**
- Knitted fabric upper
- Flexguard® composite penetration resistant insert
- Composite toecap
- Mesh lining
- PU/PVU sole
- Width W
- Size range: 35-44
- UK size range: 2-13

**INTREPID S3**
- Action Leather upper
- Abrasion resistant PU toecap
- Steel penetration resistant insert
- Steel toecap
- Mesh lining
- PU/PVU sole
- Width W
- Size range: 35-49
- UK size range: 2-14 (including 6.5 and 9.5)

**SHEPARD S3**
- Action Leather upper
- Abrasion resistant PU toecap
- Steel penetration resistant insert
- Steel toecap
- Mesh lining
- PU/PVU sole
- Width W
- Size range: 35-49
- UK size range: 2-14 (including 6.5 and 9.5)
"The ultralight shoe offers unprecedented comfort and safety for this price in its category."
7 new Eagle models

The new models of the Eagle collection are completely metal-free and designed to perform in medium and heavy industry. With these safety shoes, you are safe in sectors such as agriculture, construction, transportation and logistics. The Eagle collection has been a favorite of many professionals for years and you can expect the same perfect fit from the new models. The leather and nubuck shaft makes the shoe resistant to outside influences and even 100% waterproof models are now available in this collection. For optimal safety, all models incorporate the Flexguard® anti-penetration insert which prevents sharp objects from penetrating the sole.

Full metal free

- For greater comfort in extreme cold environments like the Nordics or any cold storage facility.
- For safe access into areas where metal objects are not allowed like a Hospital MRI scan.
- And to get easy access to a controlled environment by avoiding delay or hassle at metal detection gates.

PU/PU vs PU/Rubber sole

PU (Polyurethane) soles are lightweight, resilient, flexible, and have good ground insulation and shock-absorbing properties. These soles have the best durability performance.

Rubber has excellent ground traction and is a non-marking, long-lasting material that enhances the shoe durability and longevity. Rubber soles are ideally suited for heavy-duty outdoor use.
FORWARD COLLECTION

Seriously safe. Seriously made in Holland.

Forward safety shoes are designed to deliver the highest level of protection and comfort. The incorporated Walkline® Evo technology reduces fatigue and keeps you energized. The perfect degree of shock absorption reduces impact to the joints, to help prevent injuries and tiredness. The light double density PU-sole provides supreme grip and slip resistance, far exceeding the SRC standard. Every Forward model is detection friendly or even completely metal free and equipped with our moisture absorbing Premium Fit inlay sole. With a variety of high class upper materials there is a perfect match for almost any working environment.

"The right level of shock absorption reduces impact to the joints to help prevent injuries and fatigue."
Walkline® is an ergonomic system that Bata Industrials has developed together with biomechanical researcher Terje Haugaa. Haugaa found that more than 30% of people who wear safety shoes have one or more health-related foot problems. Reason; many safety shoes are designed with a ‘banana’ shape that forces the foot into an unnatural position. To solve this problem, Bata Industrials and Terje Haugaa developed Walkline® years ago.

Many years of further research and development led to the latest Walkline® technology: Walkline® Evo. This technology offers durable comfort, excellent grip and outstanding shock absorption. The natural last provides the perfect fitting for the foot, with the heel lock securing the heel of the foot. Flexlines provide maximum flexibility needed in dynamic work environments and offer a natural support in every step. As a result you become less tired and walk more energetically.

**WALKLINE® EVO**

1. **ERGONOMIC**
   Walkline® Evo is ergonomic, based on applied science to maximize productivity of the foot motion by reducing fatigue and creating great comfort. Walkline® Evo guides and supports the foot to make natural movements and to use the momentum of the motion. The integrated, high-technology shank provides stability at the midfoot. Walkline® Evo helps you to stand and walk in a correct anatomical position.

2. **DURABLE COMFORT**
   When you walk all day in your safety shoes, comfort has to be a top priority. Walkline® Evo offers durable comfort, supporting the foot movement in a healthy way. As an addition to the Walkline® Evo system, we integrated an extra thick inlay sole that stimulates natural foot movement and provides an extraordinary cushioning effect.

3. **FLEXLINES**
   Walkline® Evo incorporates smart flexlines that follow the foot’s natural flex zones, offering maximum support, grip and flexibility.

4. **NATURAL LAST**
   Walkline® Evo offers perfect fitting by following the shape of the foot. Conventional shoe lasts force the foot into an unnatural banana shape, which can create anatomical problems. Walkline® Evo has a straight last, designed to fit the contour of the foot, keeping the foot in a secure position.

5. **GRIP**
   Optimal grip is essential in all work environments. Slipping and falling account for many accidents on the work floor, which is easily avoided by wearing the right safety footwear. Walkline® Evo features anti-slip soles, which provide outstanding grip. We have added additional Flex Grip solutions in the design of our outsole for extra anti-slip purposes.

6. **HEEL LOCK**
   Our heel lock makes sure the foot stays in the right position, locking it to support the natural foot motion.

7. **SHOCK ABSORPTION**
   Walkline® Evo makes light work of hard surfaces. The Tunnelsystem helps manage impact, providing energy return and cushioning. Our intelligent combination of midsole, outsole, inlay sole and in some cases shank can absorb shocks. This technology helps reduce impact to the joints, which reduces injuries and fatigue.
TRAXX COLLECTION

Seriously safe. Seriously reliable.

More than twenty years ago, we developed the Traxx collection in accordance with all legal, health and safety requirements. Now the models are equipped with the latest technologies and are still amongst our bestsellers. With a steel toecap, SRC certified outsole, high-quality inlay sole and penetration resistant insert made of steel or FlexGuard® composite, the Traxx models set the new standard for safety shoes. Some models are water-repellent or even waterproof thanks to the HDry® membrane. And some shoes are equipped with an abrasion resistant TPU toecap to provide extra protection. The Traxx collection is specially designed to give your feet the best comfort. All day long.

ENDURO ACT COLLECTION

Seriously safe. Seriously supportive.

Comfort and support are the key words for our Enduro ACT collection. These shoes include the Walkline® 2.0 technology and many comfort features that reduce fatigue and keep you energized. The PU outsole is SRC certified. Purpose-made for general use, ACT offers lightweight, comfortable and sporty designs. The white ACT 156 encompasses technology and quality materials such as microfiber. This importantly assists in maintaining the right level of hygiene in sectors like the food industry.

"The innovative Walkline® system supports the foot in its natural position."
WHERE DOES THE SMELL COME FROM?
When feet sweat, they release moisture from the 250,000 sweat glands on each foot. Bacteria are attracted to this moisture, which they consume and then excrete as waste gases with an unpleasant and penetrating odor.

WHAT IS ODOR CONTROL?
Bata Industrials has worked together with scientists to develop a solution that not only eliminates odor, but is also completely eco-friendly. Whereas other methods leave a large environmental footprint, Odor Control is free of synthetic chemicals. It is based on a completely natural plant extract, derived from peppermint. Odor Control has the innate ability to control 99.9% of bacteria and even maintains its effect at temperatures of up to 240°C. This makes your feet feel fresh all day long.

TESTED TO THE HIGHEST STANDARD
Odor Control delivers excellent antimicrobial efficiency in AATCC 100 testing, as conducted by an independent laboratory. Tested and approved according to the strictest standards in the world for antibacterial finishes on textile materials, Odor Control is used not just in the sock liner of safety shoes, but in all areas surrounding the foot.

ODOR CONTROL IS THE ANSWER TO THE PROBLEM OF SHOES THAT SMELL BAD
Odor Control is a total solution that attacks and controls 99.9% of bacteria attracted to sweaty feet.
ENDURO PWR COLLECTION

Seriously safe. Seriously supportive.

Heavy working conditions ask for solid shoes that provide optimum grip, comfort and support. That’s where the PWR range comes in. The collection is designed to perfectly deal with rough ground such as gritty, concrete, and muddy surfaces.

The SRC certified rubber outsole has a wider and deeper profile and is resistant to heat up to 300˚ C. Although it’s created to be tough, the ergonomic PWR collection incorporates the Walkline® 2.0 technology to help prevent fatigue and keep you on your toes.

Without gaps between the impenetrable waterproof membrane and the fabric underneath, water cannot get trapped in between these layers. Because of this, there is no chance of water leaking through the fabric after long exposures to rain. A very important feature is that breathability is not affected.

"Solid safety shoes that deal with rough grounds such as gritty, concrete and muddy surfaces."
Helix safety shoes have it all. They are durable, robust, stylish and provide the highest standard of comfort in the toughest of working conditions. The rubber outsoles are SRC certified. Helix safety shoes feature an advanced cushioning system and our ingenious Tunnelsystem® for the best possible shock absorption. This reduces fatigue and stress on the feet and joints. The built in 3M Scotchgard™ leather protector is designed to leave water and oil on the surface, which makes it easy to wipe dirt away. This will extend the life of our new favorite shoes.

“Engineered to provide the highest level of comfort in the toughest of working conditions.”

LONGREACH BOA

Engineered to provide the highest level of comfort in the toughest of working conditions.

BOA® Fit System
The BOA® Fit System makes shoe laces obsolete. The High Performance BOA® Fit System is quickly adjustable and guarantees a lifetime of carefree work days without laces untangling.

3M Scotchgard™ Protector
Built-in leather protection that is designed to leave water and oil on the surface, which makes it easy to wipe dirt away. This will extend the life of your new favorite shoes.

Detection & airport friendly
This shoe is made with composite safety components certified to the highest safety standards. Making it ideal for travelling through metal detection portals and airport security.
NOVA COLLECTION

Seriously safe. Seriously energizing.

The increased performance and comfort of the Nova collection will leave you with the right amount of energy. The biomechanical Walkline® 2.0 technology, optimizes the wearer’s walk and gait. The Flexlines in the sole follow the foot’s natural flexing zones, creating a more energetic walking experience. The very strong heel counter contributes to the stabilization and ergonomics of the foot. We have combined high-tech microfiber materials and breathable fabrics with a flexible, dynamic SRC certified TPU QuattroTech™ sole. This creates a shoe that is designed for safety and looks ultra-stylish. Its light, breathable materials make it easy to wear. The result? You’ll stay energized throughout the whole day, wherever you work.

- UK size range: 2-13
Seriously safe. Seriously functional.

Sneakers, boots or safety shoes? With Bickz there’s no need to choose. Bickz are the perfect combination of functionality, safety and design. The metal free composite materials provide outstanding protection for your feet. The SRC certified outsoles provide outstanding slip resistance and are contact heat resistant. The EVA/rubber sole combination ensures comfort and performance at all times.

BICKZ 305 S3
- Full grain leather upper
- Abrasion resistant rubber toecap
- FlexGuard® composite penetration resistant insert
- Composite toecap
- BOA® Fit System
- Bickz Cool System®-lining
- EVA/rubber sole
- Width W
- Size range: 36-48
- UK size range: 5-13 (including 6.5 and 9.5)

BICKZ 907 S3
- Full grain leather upper
- Abrasion resistant rubber toecap
- FlexGuard® composite penetration resistant insert
- Composite toecap
- Dirt proof slipper
- Bickz Cool System®-lining
- EVA/rubber sole
- Width W
- Size range: 38-48
- UK size range: 5-13 (including 6.5 and 9.5)

BICKZ 731 ESD S3
- Nubuck leather upper
- Abrasion resistant rubber toecap
- FlexGuard® composite penetration resistant insert
- Composite toecap
- Bickz Cool System®-lining
- EVA/rubber sole
- Width W
- Size range: 36-48
- UK size range: 3-13 (including 6.5 and 9.5)

BICKZ 732 ESD S3
- Leather upper
- Abrasion resistant rubber toecap
- FlexGuard® composite penetration resistant insert
- Composite toecap
- Bickz Cool System®-lining
- EVA/rubber sole
- Width W
- Size range: 36-48
- UK size range: 3-13 (including 6.5 and 9.5)

BICKZ 733 ESD S3
- Nubuck leather upper
- Abrasion resistant rubber toecap
- FlexGuard® composite penetration resistant insert
- Composite toecap
- Bickz Cool System®-lining
- EVA/rubber sole
- Width W
- Size range: 36-48
- UK size range: 3-13 (including 6.5 and 9.5)

BICKZ 728 ESD S3
- Nubuck leather upper
- Abrasion resistant rubber toecap
- FlexGuard® composite penetration resistant insert
- Composite toecap
- Bickz Cool System®-lining
- EVA/rubber sole
- Width W
- Size range: 36-48
- UK size range: 3-13 (including 6.5 and 9.5)
BOOTS COLLECTION

Seriously tough. Seriously rough.

On the following pages you can find all our slip on safety boots. Our boots have been developed to deal with the toughest demands and to meet the highest level of performance. They combine outstanding comfort for the longest working days with premium protection. SUMM Boot black winter, SUMM Boot brown winter, Goliath, Potent and Robust have a fur lining for perfectly warm feet in cold working conditions. The Colossus and Barge are perfect for wet circumstances because of their HDry membrane. The advantage of a boot is that you can quickly slip in and out of them. This is especially useful when you move a lot between work environments during the day, for example an indoor office and outdoor site.

SUMM® BOOT BLACK S3
- Full-grain leather upper
- Abrasion resistant TPU toecap
- FlexGuard® composite penetration resistant insert
- Aluminium toecap
- Pull up straps
- Mesh lining
- P2P2U sole
- Width W
- Size range: 38-48
- UK size range: 5-13

SUMM® BOOT BLK WINTER S3
- Full-grain leather upper
- Abrasion resistant TPU toecap
- FlexGuard® composite penetration resistant insert
- Aluminium toecap
- Pull up straps
- Faux fur lining
- P2P2U sole
- Width W
- Size range: 38-48
- UK size range: 5-13

SUMM® BOOT BROWN S3
- Full-grain leather upper
- Abrasion resistant TPU toecap
- FlexGuard® composite penetration resistant insert
- Aluminium toecap
- Pull up straps
- Mesh lining
- P2P2U sole
- Width W
- Size range: 38-48
- UK size range: 5-13

SUMM® BOOT BRN WINTER S3
- Full-grain leather upper
- Abrasion resistant TPU toecap
- FlexGuard® composite penetration resistant insert
- Aluminium toecap
- Pull up straps
- Faux fur lining
- P2P2U sole
- Width W
- Size range: 38-48
- UK size range: 5-13

The SUMM® Boot collection is expected to be available as from second half of Q4 2022.
MAMMOET BARGE S3
- Full grain leather upper/abrasion resistant rubber toe cap
- Steel toe cap
- Pull-up straps
- Data Cool Comfort®-lining
- HDry® waterproof membrane
- TriTech Flat®-rubber-sole
- Width: XW
- Size range: 39–49
- UK size range: 6-14 (including 6.5 and 9.5)

COLOSSUS S3
- Full grain leather upper/abrasion resistant rubber toe cap
- Steel toe cap
- Pull-up straps
- Data Cool Comfort®-lining
- HDry® waterproof membrane
- TriTech Flat®-rubber-sole
- Width: XW
- Size range: 39–49
- UK size range: 6-14 (including 6.5 and 9.5)

GOLIATH S3
- Full grain leather upper/abrasion resistant rubber toe cap
- Steel toe cap
- Pull-up straps
- Data Cool Comfort®-lining
- HDry® waterproof membrane
- TriTech Flat®-rubber-sole
- Width: XW
- Size range: 39–49
- UK size range: 6-14 (including 6.5 and 9.5)

POTENT S3
- Full grain leather upper/abrasion resistant rubber toe cap
- Steel toe cap
- Pull-up straps
- Data Cool Comfort®-lining
- HDry® waterproof membrane
- TriTech Flat®-rubber-sole
- Width: XW
- Size range: 39–49
- UK size range: 6-14 (including 6.5 and 9.5)

ROBUST S3
- Full grain leather upper/abrasion resistant rubber toe cap
- Steel toe cap
- Pull-up straps
- Data Cool Comfort®-lining
- HDry® waterproof membrane
- TriTech Flat®-rubber-sole
- Width: XW
- Size range: 39–49
- UK size range: 6-14 (including 6.5 and 9.5)

STUR BAUXITE S3
- Pull up leather upper/abrasion resistant PU toe cap
- Steel toe cap
- Mesh lining
- Odor Control
- PU/PVU sole (Michelin)
- Width: W
- Size range: 37–48
- UK size range: 4-13 (including 6.5 and 9.5)

"For the right boot you look for safety, comfort and price. But style matters too, right?"
WORKMASTER II are S5 certified safety boots, including a steel toecap, a steel penetration resistant insert and a SRA certified PVC sole. They also feature reinforcement at the heel, ankle and shin. Our gumboots are made of PVC that is formulated to meet the correct application across a wide range of industries. Workmaster II gumboots are the best choice when you’re looking for high performance, premium quality and lasting durability.

"The best choice when you’re looking for high performance, premium quality and lasting durability."

THE SAFETY STANDARD

If a shoe carries a CE-label, this indicates the following: the product meets the requirements of European Regulation 2016/425 regarding personal protective equipment. The CE-standard EN ISO 20345: 2011 has recently renewed. The new CE-standard EN ISO 20345: 2022 consists of two parts. The basis label means that a product meets a number of basic requirements. If the product also meets certain additional requirements, this is indicated by a symbol on the shoe. Below an explanation of the symbols.

The old standard 2011 remains in force for safety shoes that are already on the market and for which the certification is still valid. A safety shoe certificate is valid for 5 years. Safety shoes introduced after 30 March 2023 will be tested according to the new standards. This means that in the coming years there will be a transition period in which safety shoes comply with either the old or the new certification. On our website you will find more information about this topic.

EXPLANATION OF THE SYMBOLS - IN BLUE THE CHANGES FOR 20345: 2022

OB Professional shoes without a toecap
SB Protective footwear for professional use with toecaps designed to give protection against impact when tested at an energy level of 200 joules
SL As SB plus antistatic properties, energy absorption of seat region, closed heel and resistance to fuel oil
S2P As S1 plus metal anti penetration resistant insert
S2PS As S1 + anti penetration insert, non-metal Ø 3,0 mm
S2PL As S1 + anti penetration resistant insert non-metal Ø 4,5 mm
S2 As S1 plus water resistance and water absorption of upper material
S3 As S2 plus metal anti penetration resistant insert and cleated outsole
S3S As S2 + anti penetration resistant insert non-metal Ø 3,0 mm and cleated outsole
S3L As S2 + anti penetration resistant insert non-metal Ø 4,5 mm and cleated outsole
S6 All-rubber or all-polymer footwear, antistatic properties, energy absorption of seat region, protective toecap, closed heel and resistance to fuel oil
S5 As S6 + anti penetration resistant insert metal and cleated outsole
S5S As S6 + anti penetration resistant insert non-metal Ø 3,0 mm and cleated outsole
S5L As S6 + anti penetration resistant insert non-metal Ø 4,5 mm and cleated outsole
S6 As S2 + the shoes feature water repellency or are water resistant
S7 As S3 + the shoes feature water repellency or are water resistant
S7S As S3S + the shoes feature water repellency or are water resistant
S7L As S3L + the shoes feature water repellency or are water resistant

ADDITIONAL REQUIREMENTS FOR SPECIAL APPLICATIONS WITH SPECIFIC MARKS – IN BLUE THE CHANGES FOR 20345: 2022:

P Perforation resistance, metal plate insert
PS Perforation resistance, non-metal plate insert. Tested with Ø 3.0 mm conic nail
PL Perforation resistance, non-metal plate insert. Tested with Ø 4,5 mm conic nail
C Conductive

SAFETY FOOTWEAR – This footwear is designed to minimize the risk of injury from the specific hazards as identified by the marking on the particular product (see marking codes above). However, always remember that no item of PPE can provide full protection and care must always be taken while carrying out the risk-related activity.

PERFORMANCE AND LIMITATIONS OF USE – These products have been tested in accordance with EN ISO 20345 for the types of protection defined on the product by the marking codes explained above. However, always ensure that the footwear is suitable for the intended end use.

COMPATIBILITY – To optimize protection, in some instances it may be necessary to use this footwear with additional PPE such as protective trousers or over gaiters. In this case, before carrying out the risk related activity, consult your supplier to ensure that all your protective products are compatible and suitable for your application.

SOCKS & INLAYS SOLES – Wear Bata Industrials socks for the best comfort. Change your socks regularly and, in case of perspiration, take alternating hot and cold baths. Change shoes regularly: leather is a natural product and should be allowed to rest. Choose the right shoe for your foot. If needed you can make them custom-made with our supportive inlay soles. Only with the right combination will the safety shoe retain its original certification. On our website an overview of which inlay soles are suitable for which safety shoes.

SOCKS COLLECTION

Let’s talk about socks with a perfect fit.

Especially with safety shoes it is important that the socks you are wearing are comfortable. Socks not only protect against cold or heat, but also against friction and help to remove perspiration in a controlled way. That’s why we put as much innovative technology into our socks as we do into our shoes. The choices of high-tech fabrics and construction offer new levels of safety and comfort.
**LADY SOCKS**

SERIOUSLY. ladylike

You know what you want. And we’ve listened to that. As the name suggests, we developed the Lady socks range especially for women. Tailored to the shape and size of the woman’s foot, made from the best materials and with innovative technologies. Because women’s feet are very different in both shape and sensitivity. Not only is the average woman’s foot smaller and more narrow, a woman also positions her foot differently and tends to have cold feet more quickly.

That is why we have developed this unique collection of work socks especially for today’s professional woman. Made from the best and most durable fibers, yarns and supportive zones. With a fit and comfort specially created for you.

**Sizes:** S (35-38) / M (39-42)
**UK sizes:** S (2-5) / M (6-8)

**LADY BAMBOO**
A lightweight and extra soft work sock specially shaped for the woman’s foot. Made from viscose of bamboo and wool for softness and moisture regulation plus polyamide for strength of the sock. Through the combination of excellent moisture-regulating properties and Pro-Cool® polyester fibers, feet remain pleasantly dry and fresh. Due to the antibacterial Amicor™ unpleasant odors don’t stand a chance.

- Lightweight and soft work sock made from viscose of bamboo and wool
- Designed for women’s feet
- Optimal moisture-regulating properties ensure fresh, dry feet
- Flex fit ensures a smooth transition from leg to foot
- Leg and arch support
- Comfort board
- Extra protection and comfort due to the terry sole
- Shock absorption
- Antibacterial fibers keep unpleasant smells at bay and keep feet feeling fit
- ESD due to metal fiber

**Composition:** 31% viscose of bamboo, 19% polyamide, 19% Pro-Cool® (polyester), 8% wool, 1% Bekinox® (metal fiber), 1% Lycra® (elastane)

**Available in:** light grey

**LADY COTTON**
An all-round work sock, designed for women’s feet. Lady Cotton is made from cotton with Pro-Cool® polyester fibers in the foot, which will transport moisture to the outside of the sock. Thanks to the combination of Pro-Cool® and ventilation channels, feet will stay comfortably fresh and dry. Due to the antibacterial silver unpleasant odors don’t stand a chance. Optimal wearing comfort provided by anatomically shaped footbed.

- All-round work sock made from cotton
- Designed for women’s feet
- Optimal moisture-regulating properties and air circulation ensure fresh, dry feet
- Leg support
- Comfort board
- Extra comfort due to the terry sole
- Shock absorption
- Unpleasant odors stand no chance due to antibacterial silver
- ESD due to silver

**Composition:** 51% cotton, 31% Pro-Cool® (polyester), 15% polyamide, 3% silver, 2% Lycra® (elastane)

**Available in:** navy

**HEAVY DUTY SOCKS**

SERIOUSLY. heavy duty

The heavy duty socks in this collection are designed to be worn in tough, rough working conditions. We have used the strongest and most durable fibers, yarns and protective zones for a perfect fit and extra comfort to your safety footwear. Perfectly comfortable, supported and protected when your feet need it most.

**Sizes:** S (35-38) / M (39-42) / L (43-46) / XL (47-50)
**UK sizes:** S (2-5) / M (6-8) / L (9-11) / XL (12-15)

**HEAVY DUTY COTTON**
An extra strong sock made from cotton, reinforced with polyamide at foot and heel. Specially designed to be worn in heavy duty working conditions with STUR safety shoes and boots. Heavy Duty socks also pair great with all our safety footwear made for tough work. Feet will stay perfectly comfortable thanks to excellent moisture-regulating properties and the extra soft and cushioned terry in the sole and leg.

- Extra strong sock in calf-length (also to wear in boots)
- Optimal moisture-regulating properties ensure fresh, dry feet
- Leg and arch support
- Comfort board
- Reinforced zones around the heel, footbed and toe ensure extra durability
- Extra comfort due to the terry sole and leg
- Shock absorption

**Composition:** 75% cotton, 23% polyamide, 2% Lycra® (elastane)

**Available in:** black
The special socks in this range are designed to offer protection in specific working environments and conditions. The best fibers, yarns and protective zones are used to guarantee a perfect fit and enhanced comfort to your safety shoes. Leaving your feet safe, supported and protected.

Sizes: 35-38 / 39-42 / 43-46 / 47-50
UK sizes: 2-5 / 6-8 / 9-11 / 12-15

### ANTI BUG
A long sock made from cotton with Cell Solution Protection® fibers. Protects feet and lower legs against nasty ticks and mosquito bites and more importantly against infectious diseases related to these bites. A perfect sock for foresters, horticulturists, farmers, soldiers and anyone working in nature.

- Effective protection of feet and lower legs due to Cell Solution Protection® fibers
- Cell Solution Protection® is a patented technology in which the insect repellent permethrin is spun deep into the fiber and ensures an even release of the permethrin
- Maintains its protection up to 100 washes and does not require post-treatment
- Cell Solution® Protection is Deko Text standard 106 certified and does not irritate to skin
- Optimal moisture-regulating properties ensure fresh, dry feet
- Flex fit ensures a smooth transition from leg to foot
- Special zones provide protection for heel and toe
- Leg and arch support
- Smooth board
- Comfort seam
- Extra protection and comfort due to the terry sole
- Shock absorption
- Unpleasant odors stand no chance due to antibacterial silver
- ESD

**Composition:**
- 17% Cotton, 24% Polyamide, 18% Pro-Cool® (Polyester),
- 11% Lanying Modal® (viscose), 11% Cell Solution Protection® (Cellulose),
- 2% Lyco® (Lycra), 2% Silver

Available in: gray-green

\* Wearing Anti Bug socks does not offer a 100% guarantee against ticks and mosquito bites. It remains important to check your body and clothing for ticks after coming indoors.

### ALL SEASONS COTTON

- Optimal wearing comfort thanks to the anatomically shaped foot sole in the left and right sock
- Optimal moisture-regulating properties ensure fresh, dry feet
- Flex fit ensures a smooth transition from leg to foot
- Special zones provide protection for heel, toe and Achilles
- Leg, ankle and arch support
- Comfort seam
- Extra protection and comfort due to the terry sole
- Shock absorption
- Antibacterial fibers keep unpleasant smells at bay and keep feet feeling fit
- ESD due to metal fiber

**Composition:**
- 49% Cotton, 22% Polyamide, 17% Pro-Cool® (Polyester), 9% Amicor® (Acrylic),
- 2% Lyco® (Lycra), 1% Bekinox® (Bacterial fiber)

Available in: gray

### ALL SEASONS MERINO WOOL

- Optimal wearing comfort thanks to the anatomically shaped foot sole in the left and right sock
- Optimal moisture-regulating properties ensure fresh, dry feet
- Flex fit ensures a smooth transition from leg to foot
- Special zones provide protection for heel, toe and Achilles
- Leg, ankle and arch support
- Comfort seam
- Extra protection and comfort due to the terry sole
- Shock absorption
- Antibacterial fibers keep unpleasant smells at bay and keep feet feeling fit
- ESD due to metal fiber

**Composition:**
- 45% Merino wool, 20% Polyamide, 17% Pro-Cool® (Polyester), 9% Amicor® (Acrylic), 2% Lyco® (Lycra), 1% Bekinox® (Bacterial fiber)

Available in: anthracite

No matter how cold or warm it is, the natural fibers in Bata’s All Seasons socks always feel pleasant. All Seasons socks are available in Merino wool and cotton.

The Merino wool comes from Merino sheep with very fine wool that does not itch. As a result, the Merino wool socks are great in any circumstance. Wool ensures the body temperature of the skin, retains 30% moisture without feeling wet and is naturally elastic, dirt-resistant and anti-bacterial.

Cotton socks are stronger than wool and can be washed at 40°C. Special zones in the sock guarantee a perfect fit and ultimate comfort. Your feet are safe, protected and supported in the right places.

Sizes: 35-38 / 39-42 / 43-46 / 47-50
UK sizes: 2-5 / 6-8 / 9-11 / 12-15

COOL SOCKS

SERIOUSLY, cool and dry

KEEP YOUR HEAD AND FEET COOL!

Working in a warm environment? Cool socks from Bata Industrials offer your feet a pleasant cooling. All models from this collection contain Pro-Cool®. This fiber leads perspiration from your foot through the sock to the inner lining of the shoe. This keeps your feet nicely cool and dry, which reduces the risk of blistering. The combination with other materials (fibers and yarn) and the addition of various protective zones ensure unique functional and comfort-enhancing properties. The blue line on the side of the sock shows that it is a Cool sock.

Sizes: 35-38 / 39-42 / 43-46 / 47-50

UK sizes: 2-5 / 6-8 / 9-11 / 12-15

COOL MS 1
A moisture-regulating sock is one of the best and strongest socks in the collection.

- Optional moisture-regulating properties ensure fresh, dry feet
- Flex fit ensures a smooth transition from leg to foot
- Leg and arch support
- Comfort seam

Composition: 35% cotton, 25% Pro-Cool® (polyester), 24% polyamide, 1% Lycra® (elastane), 1% Bekinox® (metal fiber)
Available in: black

COOL MS 2
The very latest technologies have been incorporated into this strong, moisture-regulating sock.

- Thanks to optimal ventilation, feet remain cool and dry
- Flex fit ensures a smooth transition from leg to foot
- Special zones provide protection for head and toe
- Leg support
- Comfort seam
- Extra protection and comfort due to the Terry sole
- Shock absorption
- Antibacterial fibers keep unpleasant smells at bay and keep feet feeling fit
- ESD due to metal fiber

Composition: 35% cotton, 25% Pro-Cool® (polyester), 24% polyamide, 1% Lycra® (elastane), 1% Bekinox® (metal fiber)
Available in: anthracite, black

COOL MS 3
A strong, sporty sock with very good moisture-regulating properties. Pro-Cool® draws perspiration from the foot via the outer side of the sock to the interior lining of the shoe.

- Optimal wearing comfort thanks to the anatomically shaped foot sole in the left and right sock
- Extreme moisture-regulating properties ensure pleasantly dry feet
- Flex fit ensures a smooth transition from leg to foot
- Special zones provide protection for head, toe and Achilles
- Leg, ankle and arch support
- Extra protection and comfort due to the Terry sole
- Shock absorption
- Unpleasant odors stand no chance due to antibacterial silver
- ESD due to silver

Composition: 70% Pro-Cool® (polyester), 10% polyamide, 2% Silver, 1% Lycra® (elastane)
Available in: blue denim with gray
**THERMO SOCKS**

**SERIOUSLY. warm and dry**

Do you work in cold and damp conditions? Thermo socks from Bata Industrials will keep your feet warm and dry. Most of our Thermo socks have a high percentage of virgin wool. We combine this with other yarns and fibers. Each sock has its own combination and its own sophisticated protective zones. This way each sock, gets unique functional and comfort-enhancing properties.

Sizes: 35–38 / 39–42 / 43–46 / 47–50
UK sizes: 2–5 / 6–8 / 9–11 / 12–15

---

**THERMO MS 1**

This comfortable sock is 100% synthetic and the strongest sock in the collection. It is superbly warm and has excellent moisture regulation, ideal for people who have to work in cold conditions like construction workers and road members.

- Insulating sock that keeps feet agreeably warm
- Optimal air circulation for pleasantly fresh, dry feet
- Flex Fit ensures a smooth transition from leg to foot
- Special zones provide protection for heel, toe and Achilles
- Comfort seam
- Extra protection and comfort due to the Terry sole

Composition: 75% Thermolite (polyester), 24% polyamide, 1% Lycra® (elastane)

Available in: black

---

**THERMO MS 2**

A warm, woolen ankle sock with superb moisture regulation. Thanks to the combination of virgin wool and Pro-Cool®, feet remain warm and dry in all conditions.

- Optimal air circulation for pleasantly fresh, dry feet
- Flex Fit ensures a smooth transition from leg to foot
- Special zones provide protection for heel, toe and Achilles
- Comfort seam
- Extra protection and comfort due to the Terry sole
- Antibacterial fibers keep unpleasant smells at bay and keep feet feeling fit
- ESD due to metal fiber

Composition: 75% Thermolite (polyester), 24% polyamide, 1% Lycra® (elastane), 1% Bekinox® (metal fiber)

Available in: black

---

**THERMO MS 3**

A warm, woolen ankle sock with superb moisture regulation. Thanks to the combination of virgin wool and Pro-Cool®, feet remain warm and dry in all conditions.

- Optimal air circulation for pleasantly fresh, dry feet
- Flex Fit ensures a smooth transition from leg to foot
- Special zones provide protection for heel, toe and Achilles
- Comfort seam
- Extra protection and comfort due to the Terry sole
- Antibacterial fibers keep unpleasant smells at bay and keep feet feeling fit
- ESD due to metal fiber

Composition: 34% shrink-resistant virgin wool, 29% polyamide, 21% Pro-Cool® (polyester), 12% Amicor™ (acrylic), 1% Lycra® (elastane)

Available in: black

---

**THERMO HM 2**

A thick, calf-length sock made from virgin wool to keep feet pleasantly warm and dry. Ideal for in boots and high cut shoes. A superb fit, with a specially designed board that prevents sagging.

- The natural action of wool ensures nice dry feet
- Good support for the leg and front of the foot reduces fatigue
- Flex Fit ensures a smooth transition from leg to foot
- Special zones provide protection for heel, toe and shinbone
- Leg and arch support
- Comfort seam
- Extra protection and comfort due to the Terry sole

Composition: 40% polyamide, 31% shrink-resistant virgin wool, 21% acrylic, 1% Lycra® (elastane)

Available in: black

---

**THERMO ML**

An agreeably long, warm woolen sock, ideal for people wearing boots. Through the combination of virgin wool and Pro-Cool®, feet remain warm and dry in all conditions. Has many supportive and protective zones, plus an extra-long band to prevent sagging.

- Optimal wearing comfort thanks to the anatomically shaped foot sole in the left and right sock
- Optimal air circulation for pleasantly fresh, dry feet
- Flex Fit ensures a smooth transition from leg to foot
- Special zones provide protection for heel, toe, ankle, Achilles, shinbone and calf
- Leg, ankle and arch support
- Comfort seam
- Shock absorption
- Antibacterial fibers keep unpleasant smells at bay and keep feet feeling fit
- ESD due to metal fiber

Composition: 47% shrink-resistant virgin wool, 21% polyamide, 16% Pro-Cool® (polyester), 6% Amicor™ (acrylic), 1% Lycra® (elastane), 1% Bekinox® (metal fiber)

Available in: anthracite

"Keep your feet warm and dry with Bata Industrials socks."
INLAY SOLES COLLECTION

The right inlay sole makes a safety shoe your safety shoe

Safety is paramount, but comfort and support are just as important. You wear safety shoes every day, so they should fit comfortably. Bata Industrials brings shoes, socks and inlay soles together for the best results because no foot is the same. The right combination ensures optimum comfort, prevents fatigue and ensures that you have energy until the last minute of your working day.

The result: a safer working environment in which fewer accidents occur.

Our top quality inlay soles ensure an even better fit. The smart support zones offer optimum wearing comfort and stability.

From April 2019, the new European Regulation 2016/425 will be in force. This has consequences for the use of orthopaedic, podological and comfort soles in safety shoes. Only with the right combination will you be protected. A non-certified combination of safety shoe and insole increases the risk of an accident. Please contact Bata Industrials for more information.
CUSTOMIZED SOLUTIONS WITH BATA ADAPT®

The Bata adapt® step-by-step plan makes it quick and easy to create perfectly fitting and certified safety shoes. Ultimate wearing comfort, also for feet with complaints or medical problems. Always a suitable solution. Because no two feet are the same.
